

ROYAL OIL CO.

SPECIALTY LUBRICANTS

BAND SAW OIL

Premium Quality Lubricant for Band Saws

Premium Raw Materials

Excellent Anti-Wear

Keeps Blades Clean

Extends Blade Life

Exceptional Film Strength

Minimal Treat Rates

“Bandsaw users can quickly see the difference between finding something to work for their blades and utilizing something MADE for their blades. Band Saw Oil by Royal is a standout product!”

For years various materials have been used to lubricate, protect and keep bandsaw blades free of buildup. These include everything from anti-freeze to diesel fuel. While some of these products did a fair job, none compare to the performance and protection offered by a premium oil design specifically for a bandsaw application. Royal's BAND SAW oil is designed to provide superior lubrication while reducing temperatures, wear and preserving the blade. In addition, the reduction of "build up" from sap and airborne contaminants offers even greater value. Combine these with excellent film strength and modest treat rates and you have a product designed to improve bandsaw operation and reduce costs.

BAND SAW OIL

Product Specifications

Viscosity	42.0 SUS @ 210 °F 125.0 SUS @ 100 °F
Viscosity Index	140.0
Zinc	0.10%
Llb.s/Gallon	7.15
Specific Gravity	0.86
Flash Point (COC)	360 °F
Fire Point (COC)	410 °F
Pour Point	-25 °F

ROYAL BAND SAW OIL is a blend of detergents, anti-wear additives, anti-oxidants, coolants, solvents and lubricants in a high-quality hydrocracked base oil. Its approxiamtely an SAE 5W.
