

ROYAL OIL CO.

SPECIALTY LUBRICANTS

COMPRESSOR OIL

Premier Long Life Fluids Designed for Compressors

Premium Raw Materials

Excellent Water Shedding

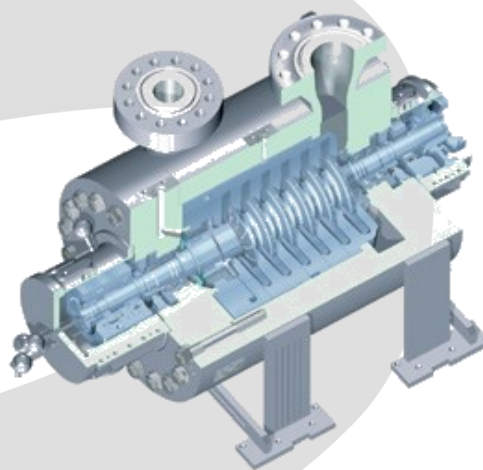

Superior Thermal Stability

Excellent No Foaming

Superior Oxidation Resistance

Boosted Anti-Wear

"The quality of base oils and the selection process for critical additives are paramount for compressor oil design. The performance you receive from Royal's COMPRESSOR OIL is directly attributed to our dedication to build a better oil."

Compressor applications are not a place where inferior lubricants can be used without suffering the consequences. Excellent wear protection and film strength are key to protecting metal surfaces, reducing wear and extending component life. Prone to moisture buildup, compressor oils often lack even moderate demulsification characteristics. The chemistry in Royal's COMPRESSOR OIL far exceeds other high-quality products in the industry offering superior protection against issues inherent with the presence of water and moisture. In every critical area, this is a product that offers exactly what is needed. Try COMPRESSOR OIL and change the way you work with these applications.

COMPRESSOR OIL

Product Specifications

ISO Number	32	68	100
Approx. SAE Grade	10	20	30
Gravity, API	30/32	29/31	28/30
Flash Point, °F. COC, Min.	400	400	415
Fire Point, °F. COC, Min.	430	440	450
Pour Point, °F. COC, Max.	0	+5	+10
Viscosity, cSt at 40° C.	32	68	100
Viscosity Index, Min.	105	105	105
Foam Test, after initial Blowing/ 5 Min. Settling, ml.			
Sequence I	25/0	25/0	25/0
Sequence II	25/0	25/0	25/0
Sequence III	25/0	25/0	25/0
Rust & Oxidation Inhibitors	Yes	Yes	Yes
Demulsibility ASTM D-1401	Excellent	Excellent	Excellent

Sharing lubricant knowledge and delivering the highest quality products, two things we promise our customers. The difference will change how you view, purchase and utilize greases and oils from here forward.

Family owned and operated since 1926.
