MAGNEMYTE

Premier Quick Set Concrete Patch

Quick Set-up

Extra Strong - Will Not Shrink

Multiple Uses

Easy To Apply

“MAGNEMYTE is a must own product if you operate a facility that sees heavy traffic and utilizes concrete common areas such as walkways, courtyards, etc.”

MAGNEMYTE is a one component cement that sets up ready for traffic in less than one hour. Almost three times stronger than concrete, it can be used to repair all types of concrete structures including steps, walkways, fence posts, loading docks, and many other areas.

While there are multiple concrete patch/repair products in retail settings, this is the only one worth owning. From the formula to the raw materials, do it right the first time.

Surface Preparation: Clean Surface for repair, removing loose debris, disintegrated concrete, oil, grease, and dirt. Flush the area thoroughly with clean water and allow to dry. A dry surface ensures a better bond.

Mixing: At room temperature, the mixing and pouring procedure should take no longer than 10 minutes as its initial set time is 10 to 15 minutes. The warmer the ambient temperature and temperature of the surface to be repaired, the faster the cure time. Cold temperatures slow down the cure time. In very cold temperatures, it may be necessary to warm the surface before filling. To mix, add 1/2 gallon of water to 50 pounds of MAGNEMYTE. Mix for one minute, making sure that all the dry powder is wetted and stirred thoroughly.

Coverage: One 50 pound container of MAGNEMYTE mixed with 1/2 gallon of water will cover 10 square feet, 1/2 inch thick.

MAGNEMYTE

Product Specifications

Color	Gray
Form	Dry Powder
Flow	Good
Weight/Volume	109 lbs./ft. ³
VICAT SET– Minutes (ASTM C 191)	
Beginning	15
Initial	16.5
Final	18
Ultimate Temperature, °F.	170
Compressive Strengths (psi)	
1 hour	6017
2 hours	7657
3 hours	8532

MIX RATIOS

Water	Cement
1/2 Gallon	50 Pounds
1 Quart	25 Pounds
1 Pint	12.5 Pounds

Sharing lubricant knowledge and delivering the highest quality products, two things we promise our customers. The difference will change how you view, purchase and utilize greases and oils from here forward.
