

ROYAL OIL CO.

SPECIALTY LUBRICANTS

TIREGO

Multi-functional Puncture Seal

Fast Acting Puncture Seal

Built with Synthetic Fibers

Lowers Tire Temperatures

Prevents Bead Welds

Prevents Rim Rust

Cold Weather Capable

“The puncture seal is what gets the initial attention of customers. But it’s the ability to prevent bead welds and lower temperatures that makes TIREGO a must have for anyone running heavy equipment.”

This is the one. TIREGO is a product that blows past the competition and trust us, there are many “tire and rim” products available. TIREGO is specially formulated using a propriety blend of fluids and synthetic fibers. While TIREGO is known for its impressive and rapid puncture seal ability, there are two features that save large tire operators thousands of dollars each year. TIREGO is design to displace heat while large tires are in use, thus extending the life of the tire itself, as prolonged increases in temperature rob tires of their pliable characteristics. Furthermore, TIREGO is designed to prevent bead welds in large industrial and ag tires, saving the tire from being damaged during removal for repairs. As a final bonus, TIREGO helps prevent rust and corrosion of metal rims, confirming once again it is a must have.

TIREGO

Product Specifications

Please consult Royal Oil Co.'s TIREGO Quantity Sheet for tire size– TIREGO ratio.

For Manual configuration, please use the following method of determining amount of TIREGO to be used: Measure circumference of outside of tire (in inches). Multiply circumference by bead head measurement. Divide answer by 144. Multiply answer by .25 to determine number of pints of TIREGO needed.

TIREGO PUMP

Lightweight and durable aluminum body. Piston and cylinder precision machined offering smooth continuous operation.

Pump Delivers 1/2 pint with each complete stroke, easily, and effortlessly

Built for years of service.

Sharing lubricant knowledge and delivering the highest quality products, two things we promise our customers. The difference will change how you view, purchase and utilize greases and oils from here forward.

Family owned and operated since 1926.
